**SUPPLEMENT RETIREMENTS OR SURVIVORS PENSION PLANS IN FAVOUR OF THE PERSONNEL OR THE EXECUTIVES OF THE ENTERPRISE**

**Brief description**

*During the 1996 financial year, an agreement was signed between TMVW association charged with mission and Ethias regarding the creation of a fund that would ensure the coverage of pension obligations with regard to TMVW association charged with mission's statutory employees. This fund was created to satisfy TMVW association charged with mission's retirement and widows' pension obligations to its current and former employees in accordance with their remuneration status. The coverage ratio as of 31/12/2019 is 40,5% (coverage values € 99 847 556 and commitments € 246 493 923).*

*Besides this on December the 31rst of 2019 € 18 millions remain posted on reserves not available. Indeed there is the proposal to transfer gradually the available reserves of € 20 million as on December the 31rst of 2018 to the pension fund over a period of 10 years.*

*Article 58 and next articles of the statutes stipulate that an outgoing participant takes over the pension rights for the period during which the staff member or the pensioner has been working for the association charged with mission or for that one whose rights and obligations have been taken over, in proportion to the share in the capital, and that the municipal participants guarantee the successful completion of the obligations of the pension scheme.*

The impact of the adapted valuation rule of pipes, buildings regarding the drinking water and sewerage activity and hydrants amounts for the financial year 2019 +0,3 million EUR in the division of drinking water and +0,3 million EUR in the division of sewerage.

**3. Financial fixed assets**

The financial fixed assets are valued at purchase value. Write-downs are posted in case of long-term negative value or loss of value, as justified by the situation, profitability, and prospects.

**4. Inventories**

The inventories of raw materials and consumables are revalued according to the weighted average cost method. If on the balance sheet date the fair market value of these goods is lower than their average cost, they shall be valued at the lower of the two values.

Orders in progress are valued at manufacturing price. This manufacturing price includes the acquisition cost of the materials, the cost of work done by the company's own staff and the acquisition cost of work done by third parties (in this case subcontractors).

#### 5. Investments and liquid assets

Balances with financial institutions are valued at face value.

#### 6. Capital subsidies

Subsidies are valued at nominal value. The rate at which the capital subsidies eligible for depreciation are gradually charged to the income statement parallels the depreciation schedule used for the fixed assets for which the subsidies were obtained.

#### 7. Provisions for liabilities and charges

The following provisions are made:

- provisions for pensions in connection with future payments to staff members who have retired prematurely (temporarily or permanently);
- provisions for major repair and maintenance work, intended to spread correctly the costs involved (which occur only once every several years) over the years concerned;
- provisions for other liabilities and charges in relation to pending disputes, disability benefits awarded, orders received and others.

Provisions for liabilities and charges are broken down individually according to the nature of the liabilities and charges involved. If a provision is no longer necessary in full or in part, it is written back.

In cases where valuations of anticipated risks, possible losses, and devaluations are unavoidable uncertain due to a lack of objective criteria, this is recorded in the notes, if the amounts involved may be important.

#### 8. Liabilities and receivables

Liabilities and receivables are valued at face value.

Receivables are posted as doubtful when a legal procedure has been initiated for their collection, when they are included in a collective debt settlement procedure or budget supervision and when they are being handled via the municipal "Lokale Advies Commissie" (Local Advisory Committee).

For doubtful accounts receivable, a write-down entry is posted (excluding VAT); the write-down percentage used depends on the receivable's likelihood of subsequent collection.

Receivables that have to be considered as uncollectible are deducted from the receivables balance. The following, among others, are considered uncollectible: receivables from customers who have been declared insolvent, receivables for which all procedures of collection have been exhausted and receivables older than 36 months. Any VAT included in the bad debts will be recovered, if possible.

The rules pertaining to bad debts and impairments are not applied to receivables from partners and public entities.

#### 9. Accruals and deferred income

Accruals and deferred income are valued at acquisition value. Attributable expenses are valued at face value. Regarding annual customer billings: due to the annual meter reading system, the used quantity supplied but not yet billed is calculated. The unbilled consumption is valued at the sales prices of the financial year.

## ANNUAL REPORT

In accordance with the regulations of the Companies and Associations Code and the provisions of the Articles of Association, we are pleased to present our report on the activities of our association during its ninety-seventh financial year in 2019.

During the 1996 financial year, an agreement was signed between TMVW association charged with mission and Ethias regarding the creation of a fund that would ensure the coverage of pension obligations with regard to TMVW association charged with mission's statutory employees. This fund was created to satisfy TMVW's retirement and widows' pension obligations to its current and former employees in accordance with their remuneration status. To cover the debt stemming from past service-related obligations, the pension fund will receive annual contributions amounting to 39% of the total salaries used to calculate the pension contributions. As of 31/12/2019 TMVW statutory employees' total pension reserve administered by Ethias amount € 99 847 556. The coverage ratio as of 31/12/2019 is 40,5% (coverage values € 99 847 556 and commitments € 246 493 923).

Besides this on the 31st of December 2019 € 18 million remain posted on reserves not available. Indeed there is the proposal to transfer gradually the available reserves of € 20 million as on December the 31st of 2018 the pension fund over a period of 10 years.

Article 58 and next articles of the statutes stipulate that an outgoing participant takes over the pension rights for the period during which the staff member or the pensioner has been working for the association charged with mission or for that one whose rights and obligations have been taken over, in proportion to the share in the capital, and that the municipal participants guarantee the successful completion of the obligations of this pension scheme.

In accordance with Article 3:6, Paragraph 1, 1° of the Companies and Associations Code, we hereby report that the management of the association charged with mission assesses the risks on a regular basis and determines in consultation with the management bodies what measures and/or provisions are to be adopted. The company's IT systems are protected against intrusion by unauthorized parties through effective firewall and authentication systems. Virus scanners, restricted access to internal databases and off-site backup media storage complete the company's security policy. TMVW association charged with mission is not affected by such market risks as currency exchange rate fluctuations. The credit risk concentration with regard to accounts receivable is limited due to the large number of customers. Considering the information currently available and the experiences of past years, we see no risks that would pose a short-term threat to the association charged with mission's development, results and position.

Interest and liquidity risk.

Any surplus cash balances are invested in a savings account which offers a higher interest rate than short-term deposit accounts. Any cash shortages are covered by a € 15 million variable interest rate credit line, based on Euribor plus a fixed margin, which is considered adequate to meet the current and future short-term financial needs. The Board of Directors of June 20<sup>th</sup> of 2019 approved the framework for the attraction of long term bankloans. For every new need an 'ad hoc' market consultation will take place.

All long-term loans have a fixed interest rate, with the exception of four loans with an interest rate structure that allowed TMVW association charged with mission to lower its interest rate significantly in exchange for a limited risk. The three loans with Belfius Bank will only have a negative effect with respect to the initial situation if the 30-year interest rate falls more than 5.3 basis points below the short-term, 2-year interest rate. A loan at BNP Paribas Fortis will only have a negative effect with respect to the initial situation if the 6-month Euribor lies outside the 1,50% to 4,25% limits. As of 31/12/2019 the total of

outstanding loans not subject to interest rate risk was € 987 960 500; the total of the four outstanding loans subject to interest rate risk was € 26 479 528.

Debts to municipal participants are included in the balance sheet at face value. These debts are interest-free, in accordance with the agreed terms regarding the contribution of usage rights and remaining rights. In accordance with Article 3:55 of the Royal Decree dated April 29<sup>th</sup>, 2019 to enforce the Companies and Associations Code, inspired by Article 27bis, paragraph 2, part 1, item c of the Royal Decree dated October 8, 1976, modified by the Royal Decree dated November 06, 1987, these interest-free debts are posted with a discount from the financial year 2014 on.

TMVW association charged with mission has entered into a statutory obligation to make annual contributions to a drinking water infrastructure fund proportionally to their numbers of D shares. In 2003, TMVW opted to fully express the drawing rights in the accounts which are not reflected in the balance sheet.

Off balance sheet accounts as at December 31<sup>st</sup>, 2019:

- net obligations drinking water infrastructure fund	1 378 886
- net obligations sewerage division	224 018 686

No circumstances are known to us that could materially affect the development of the association charged with mission. No research and development activities are taking place within TMVW association charged with mission. Other than its headquarters in Ghent, TMVW association charged with mission has 117 branch offices. There have been capital movements during the past financial year; we refer to F 6.7 for these. No own shares have been acquired; also no own shares have been acquired in a parent company or by a subsidiary company. No conflicts of interests occurred as defined in art. 7:96 of the Companies and Associations Code.

**DEFERRED CHARGES AND ACCRUED INCOME**

This account contains the addition that must be posted to revenues because billing for the consumption year takes place partly on an ex-post basis.

**EQUITY**

The capital decreased as a result of the destruction of a number of D shares regarding the liquidation of IMVW. The reservation of the profit in the drinking water and sewerage divisions and the increase of investment grants cause the increase of the equity.

### AMOUNTS PAYABLE AFTER MORE THAN ONE YEAR

In 2019 the debts increased due to newly committed financial debts towards financial institutions.

as of and for the financial year ended December 31, 2019  
(Annual accounts)  
VAT BE 0200.068.636 - RPR Ghent (district Ghent)**

In the context of the statutory audit of the annual accounts of ISV Tussengemeentelijke Maatschappij der Vlaanderen voor Watervoorziening Opdrachthoudende Vereniging (the Company), we hereby present our statutory auditor's report. It includes our report on the audit of the annual accounts as well as on the other legal and regulatory requirements. These reports form part of an integrated whole and are indivisible.

We have been appointed as statutory auditor by the general meeting of June 21, 2019, following the proposal formulated by the board of directors. Our statutory auditor's mandate expires on the date of the general meeting deliberating on the annual accounts closed on December 31, 2021. We have performed the statutory audit of the annual accounts of ISV Tussengemeentelijke Maatschappij der Vlaanderen voor Watervoorziening Opdrachthoudende Vereniging for five consecutive years.

## Report on the annual accounts

### *Unqualified opinion*

We have audited the annual accounts of the Company, which consist of the balance sheet as at December 31, 2019, the profit and loss account for the year then ended and the notes to the annual accounts, characterised by a balance sheet total of 3.069.821.848 EUR and a profit and loss account showing a profit for the year of 29.334.137 EUR.

In our opinion, the annual accounts give a true and fair view of the Company's net equity and financial position as at December 31, 2019, as well as of its results for the year then ended, in accordance with the financial reporting framework applicable in Belgium.

### *Basis for the unqualified opinion*

We conducted our audit in accordance with International Standards on Auditing (ISA's) as applicable in Belgium. Our responsibilities under those standards are further described in the 'Statutory auditor's responsibilities for the audit of the annual accounts' paragraph in this report. We have complied with all the ethical requirements that are relevant to the audit of annual accounts in Belgium, including those concerning independence.

We have obtained from the board of directors and company officials the explanations and information necessary for performing our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Responsibilities of the board of directors for the preparation of the annual accounts***

The board of directors is responsible for the preparation of annual accounts that give a true and fair view in accordance with the financial reporting framework applicable in Belgium, and for such internal control as the board of directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the board of directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## ***Statutory auditor's responsibilities for the audit of the annual accounts***

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue a statutory auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

In conducting our audit, we comply with the legal, regulatory and professional standards framework applicable on the audit of financial statements in Belgium. A statutory audit, however, provides no certainty as to the future viability of the Company, nor as to the efficiency or effectiveness with which the board of directors have executed, or will execute, the management of the Company.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors;
- Conclude on the appropriateness of the board of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our statutory auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our

# FIGURAD

BEDRIJFSREVISOREN

opinion. Our conclusions are based on the audit evidence obtained up to the date of our statutory auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the annual accounts and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

## **Other legal and regulatory requirements**

### ***Responsibilities of the board of directors***

The board of directors is responsible for the preparation and the content of the management report, the compliance with the legal and regulatory requirements regarding bookkeeping, as well as compliance with the Belgian Companies and Associations Code / the Belgian Company Code and with the Company's by-laws.

### ***Responsibilities of the statutory auditor***

In the context of our mandate and in accordance with the Belgian standard (Revised version 2020) which is complementary to the International Standards on Auditing (ISA's) as applicable in Belgium, it is our responsibility to verify, in all material respects, the management report and compliance with certain requirements of the Belgian Company Code/Belgian Companies and Associations Code and with the Company's by-laws.

### ***Aspects related to management report***

In our opinion, after having performed specific procedures in relation to the management report, the management report is consistent with the annual accounts for the same financial year, and it is prepared in accordance with articles 95 and 96 of the Belgian Company Code/article 3:5 and 3:6 of the Belgian Companies and Associations Code.

In the context of our audit of the annual accounts, we are also responsible for considering, in particular based on the information that we became aware of during the performance of our audit, whether the management report contains any material misstatement, i.e. any information which is inadequately disclosed or otherwise misleading. Based on the procedures we have performed, there are no material misstatements we have to report to you.

### ***Statement related to the social balance sheet***

The social balance sheet, to be deposited at the National Bank of Belgium in accordance with article 3:12, §1, 8° of the Belgian Companies and Associations Code/article 100, § 1, 6°/2 of the Company Code, includes, both in terms of form and content, the information required by the said Code, and does not contain any material inconsistencies with the information that we have at our disposition in our audit file.

### ***Statement related to independence***

- Our audit firm did not provide services which are incompatible with the statutory audit of annual accounts as referred to in article 134 of the Company Code and we remained independent of the Company during the term of our mandate.

# FIGURAD

BEDRIJFSREVISOREN

- The fees related to additional services which are compatible with the statutory audit of the annual accounts intended by article 134 of the Belgian Company Code/article 3:65 of the Belgian Companies and Associations Code were duly itemized and valued in the notes to the annual accounts.

## **Other statements**

- Without prejudice to certain formal aspects of minor importance, the accounting records were maintained in accordance with the legal and regulatory requirements applicable in Belgium.
- The appropriation of results proposed to the general meeting complies with the legal provisions and the Company's by-laws.
- There are no transactions undertaken or decisions taken in breach of the Company's by-laws or of the Belgian Company Code, or as from January 1, 2020 of the Belgian Companies and Associations Code.

1 F. Full consolidation

P. Proportional consolidation (in the first column disclose data proving joint control).

E1. Equity method used in an associated company (article 134, 1st al., 3° of the Royal Decree of 30 January 2001 in implementation of Company Law).

E2. Equity method used in a subsidiary company over which the consolidating company has a de facto control of which the inclusion in the consolidated accounts would be incompatible with the principle of a true and fair view (article 108, § 1 of the aforementioned Royal Decree).

E3. Equity method used in a subsidiary company which is in liquidation, which has decided to cease activities or which can no longer be considered as carrying on the business (article 109 and 110 of the aforementioned Royal Decree).

E4. Equity method used in a joint subsidiary company where its activities cannot be closely integrated into the activities of the enterprise having the joint control (article 134, second al. of the aforementioned Royal Decree).

2 If a change in the percentage of the proportion of capital held entails a change in the accounting method for the inclusion in the consolidated accounts, the new method will be followed by an asterisk.

3 Proportion of the capital of those enterprises being held by the enterprises included in the consolidated accounts and persons acting in their own names but on on these enterprises.

4 If the composition of the consolidated aggregate is characterised by a significant change of this percentage during this period, additional information is provided in statement V (article 112 of the aforementioned Royal Decree).

## CONSOLIDATION CRITERIA AND CHANGES IN THE CONSOLIDATION SCOPE

If of any importacne, Information and criteria governing the application of full consolidation, proportional consolidation and the equity method as well as those cases in which these criteria are departed from, and justification for such departures (*Pursuant to Article 165, I. of the Royal Decree of 3 january 2001 in implementation of Company Law*).

### Full consolidation method

The full consolidation method is used in case of (legal or factual) control by a parent company. The value of the shares of the subsidiary is eliminated against the acquired part in the equity on the date of acquisition or on the day the company becomes a subsidiary. The possible difference between both is regarded as the first consolidation difference which represents an additional cost (goodwill) or a less-price (badwill or first negative consolidation difference). Also the interests of third parties (or minority interests) are expressed. Full consolidation further means that all assets, liabilities and results are regarded as belonging to the group, whereby the intragroup balances and transactions are eliminated.

### Proportional method

The proportional consolidation method is applied by the consolidation of joint subsidiaries, if the associates agreed that decisions about the orientation of the policy of the involved subsidiaries will not be made without their mutual consent. The components of assets and liabilities, rights and commitments, income and costs of joint subsidiaries are withheld in proportion of the participation rate of the consolidating company into the consolidated companies.

### Equity-method

When the holdings of interests in a company allow the parent company to exert a considerable influence, without yet speaking of genuine control, the book value of this participation is replaced in the balance sheet by the share in the value of the equity on which this mentioned participation is entitled. The arisen difference which is normally positive, is added to the consolidated equity of the Group. Inversely the dividends taken in the results of the parent company, are replaced by the share of the latter in the results of the company on which the equity-method is applied. This share is withheld in a global way without any further precision. As the rest of the items of the balance sheet and the income statement are not influenced, there is no need to eliminate the mutual operations and balances.

### Consolidation scope

Since the financial year 2014 Creat CV (the former FARYS - cooperative company) and Farys Solar BV (private company) are withheld in the consolidation scope according to the full consolidation method. Since the financial year 2017 TMVS service association is also included.

Within the TMVW-group the equity-method is applied on De Stroomlijn CV and Synductis CV. On the contrary this is not the case for DuCoop CV because of the negligible impact. Till 2018 the associations charged with mission IMWV in liquidation and I.W.V.B. in liquidation, with which TMVW association charged with mission is associated, were included according to the equity method since she, according to the applicable legislation concerning the associations charged with mission, owns no majority in the governing bodies of those associations charged with mission. Since both of them are in liquidation, they are no longer included.

### Consolidation differences

The consolidation differences accord with the difference between the book value of the participations and the share of the equity of the consolidated companies on which those participations are entitled. The consolidation differences are divided between first consolidation

differences and fluctuations of the financial year.

The first consolidation differences are calculated at the first integration of a company in the consolidated accounts. The first consolidated balance sheet of TMVW was made on 31st of December 2006. When a new company enters the consolidation scope the difference between the acquisition value of the participation and the share in the equity of the consolidated company is posted under heading 'consolidation differences' along the assets-side (when the acquisition value is higher than the share in the equity) or along the liabilities-side (in the other case).

Information which makes a comparison meaningful with the consolidated annual accounts of the previous financial period in case the composition of the consolidation aggregate in the course of the current financial period has changed significantly (*Pursuant to Article 112 of aforementioned Royal Decree*).

**VALUATION RULES****Specification of the criteria of significant importance for valuation of the various items in the consolidated financial statements, in particular:**

- the application and adjustments of depreciation, amounts written down and provisions for liabilities and charges, and revaluations (pursuant to Article 165, VI.a. of the Royal Decree of 30 January 2001 in implementation of the Company Law).

- the bases of translation applied to express in the consolidated accounts items which are, or originally were, expressed in a currency other than the currency in which the consolidated accounts are stated, and the translation in the consolidated accounts of the accounting statements of subsidiaries and associated enterprises governed by foreign law (pursuant to Article 165, VI.b. of the aforementioned Royal Decree).

The impact of the adapted valuation rule of pipes, buildings regarding the drinking water and sewerage activity and hydrants amounts for the financial year 2019 +0,3 million EUR in the division of drinking water and +0,3 million EUR in the division of sewerage.

#### 4. Financial fixed assets

The financial fixed assets are valued at purchase value. Write-downs are posted in case of long-term negative value or loss of value, as justified by the situation, profitability, and prospects.

#### 5. Inventories

The inventories of raw materials and consumables are revalued according to the weighted average cost method. If on the balance sheet date the fair market value of these goods is lower than their average cost, they shall be valued at the lower of the two values.

Orders in progress are valued at manufacturing price. This manufacturing price includes the acquisition cost of the materials, the cost of work done by the company's own staff and the acquisition cost of work done by third parties (in this case subcontractors).

#### 6. Investments and liquid assets

Balances with financial institutions are valued at face value.

#### 7. Capital subsidies

Subsidies are valued at nominal value. The rate at which the capital subsidies eligible for depreciation are gradually charged to the income statement parallels the depreciation schedule used for the fixed assets for which the subsidies were obtained.

#### 8. Provisions for liabilities and charges

The following provisions are made:

- provisions for pensions in connection with future payments to staff members who have retired prematurely (temporarily or permanently);
- provisions for major repair and maintenance work, intended to spread correctly the costs involved (which occur only once every several years) over the years concerned;
- provisions for other liabilities and charges in relation to pending disputes, disability benefits awarded, orders received and others.

Provisions for liabilities and charges are broken down individually according to the nature of the liabilities and charges involved. If a provision is no longer necessary in full or in part, it is written back.

In cases where valuations of anticipated risks, possible losses, and devaluations are unavoidable uncertain due to a lack of objective criteria, this is recorded in the notes, if the amounts involved may be important.

#### 9. Liabilities and receivables

Liabilities and receivables are valued at face value.

Receivables are posted as doubtful when a legal procedure has been initiated for their collection, when they are included in a collective debt settlement procedure or budget supervision and when they are being handled via the municipal "Lokale Advies Commissie" (Local Advisory Committee).

For doubtful accounts receivable, a write-down entry is posted (excluding VAT); the write-down percentage used depends on the receivable's likelihood of subsequent collection.

Receivables that have to be considered as uncollectible are deducted from the receivables balance. The following, among others, are considered uncollectible: receivables from customers who have been declared insolvent, receivables for which all procedures of collection have been exhausted and receivables older than 36 months. Any VAT included in the bad debts receivables will be recovered, if possible.

The rules pertaining to bad debts and impairments are not applied to receivables from partners and public entities.

10. Accruals and deferred income

Accruals and deferred income are valued at acquisition value. Attributable expenses are valued at face value. Regarding annual customer billings: due to the annual meter reading system, the used quantity supplied but not yet been billed is calculated. The unbilled consumption is valued at the sales prices of the financial year.

## ANNUAL CONSOLIDATED REPORT

In accordance with the regulations of the Companies and Associations Code and the provisions of the Articles of Association, we are pleased to present our report on the activities of our group during its ninety-seventh financial year in 2019.

During the 1996 financial year, an agreement was signed between TMVW association charged with mission and Ethias regarding the creation of a fund that would ensure the coverage of pension obligations with regard to its statutory employees. This fund was created to satisfy TMVW association charged with mission's retirement and widows' pension obligations to its current and former employees in accordance with their remuneration status. To cover the debt stemming from past service-related obligations, the pension fund will receive annual contributions amounting to 39% of the total salaries used to calculate the pension contributions. As of 31/12/2019 TMVW statutory employees' total pension reserve administered by Ethias amount € 99 847 556. The coverage ratio as of 31/12/2019 is 40,5% (coverage values € 99 847 556 and commitments € 246 493 923).

Besides this on the 31st of December 2019 € 18 million remain posted on reserves not available. Indeed there is the proposal to transfer gradually the available reserves of € 20 million as on December the 31st of 2018 the pension fund over a period of 10 years.

Article 58 and following articles of the statutes stipulate that an outgoing participant takes over the pension rights for the period during which the staff member or the pensioner has been working for the association charged with mission or for that one whose rights and obligations have been taken over, in proportion to the share in the capital, and that the municipal participants guarantee the successful completion of the obligations of this pension scheme.

In accordance with Article 3:6 Paragraph 1, 1° of the Companies and Associations Code, we hereby report that the management of the association charged with mission assesses the risks on a regular basis and determines in consultation with the management bodies what measures and/or provisions are to be adopted. The company's IT systems are protected against intrusion by unauthorized parties through effective firewall and authentication systems. Virus scanners, restricted access to internal databases and off-site backup media storage complete the company's security policy. TMVW association charged with mission is not affected by such market risks as currency exchange rate fluctuations. The credit risk concentration with regard to accounts receivable is limited due to the large number of customers. Considering the information currently available and the experiences of past years, we see no risks that would pose a short-term threat to the development, results and position of the group.

Interest and liquidity risk.

Any surplus cash balances are invested in a savings account which offers a higher interest rate than short-term deposit accounts. Any cash shortages are covered by a € 15 million variable interest rate credit line, based on Euribor plus a fixed margin, which is considered adequate to meet the current and future short-term financial needs. The Board of Directors of June 20<sup>th</sup> of 2019 approved the framework for the attraction of long term bankloans. For every new need an 'ad hoc' market consultation will take place.

All long-term loans have a fixed interest rate, with the exception of four loans with an interest rate structure that allowed TMVW association charged with mission to lower its interest rate significantly in exchange for a limited risk. The three loans with Belfius Bank will only have a negative effect with respect to the initial situation if the 30-year interest rate falls more than 5.3 basis points below the short-term, 2-year interest rate. A loan at BNP Paribas Fortis will only have a negative effect with respect to the initial situation if the 6-month Euribor lies outside the 1,50% to 4,25% limits. As of 31/12/2019, the total of

outstanding loans not subject to interest rate risk was € 987 960 500; the total of the four outstanding loans subject to interest rate risk was € 26 479 528.

Debts to municipal participants are included in the balance sheet at face value. These debts are interest-free, in accordance with the agreed terms regarding the contribution of usage rights and remaining rights. In accordance with Article 3:55 of the Royal Decree dated April 29, 2019 to enforce the Companies and Associations Code, inspired by Article 27bis, paragraph 2, part 1, item c of the Royal Decree dated October 8, 1976, modified by the Royal Decree dated November 06, 1987, these interest-free debts are posted with a discount from the financial year 2014 on.

TMVW association charged with mission has entered into a statutory obligation to make annual contributions to a drinking water infrastructure fund proportionally to their numbers of D shares. In 2003, TMVW opted to fully express the drawing rights in the accounts which are not reflected in the balance sheet.

Off balance sheet accounts as at December 31<sup>st</sup>, 2019:

- net obligations drinking water infrastructure fund	1 378 886
- net obligations sewerage division	224 018 686

No circumstances are known to us that could materially affect the development of the TMVW group. No research and development activities are taking place within the group. Other than its headquarters in Ghent, TMVW association charged with mission has 117 branch offices. There have been capital movements during the past financial year. No own shares have been acquired; also no own shares have been acquired in a parent company or by a subsidiary company. No conflicts of interests occurred as defined in art. 7:96 of the Companies and Associations Code.

as of and for the financial year ended December 31, 2019  
(Consolidated financial statements)  
VAT BE 0200.068.636 - RPR Ghent (district Ghent)**

In the context of the statutory audit of the consolidated annual accounts of ISV Tussengemeentelijke Maatschappij der Vlaanderen voor Watervoorziening Opdrachthoudende Vereniging (the "Company") and its subsidiaries (together referred to as the "Group"), we hereby present our statutory auditor's report. It includes our report on the audit of the consolidated financial statements as well as on the other legal and regulatory requirements. These reports form part of an integrated whole and are indivisible.

We have been appointed as statutory auditor by the general meeting of June 21, 2019, following the proposal formulated by the board of directors. Our statutory auditor's mandate expires on the date of the general meeting deliberating on the consolidated financial statements closed on December 31, 2021. We have performed the statutory audit of the consolidated financial statements of ISV Tussengemeentelijke Maatschappij der Vlaanderen voor Watervoorziening Opdrachthoudende Vereniging for five consecutive years.

## **Report on the consolidated financial statements**

### ***Unqualified opinion***

We have audited the consolidated financial statements of the Group, which consist of the consolidated balance sheet as at December 31, 2019, the consolidated income statement for the year then ended and the disclosures to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information, characterised by a consolidated balance sheet total of 3.073.031.890 EUR and a consolidated income statement showing a profit for the year of 29.477.760 EUR.

In our opinion, the consolidated financial statements give a true and fair view of the Group's consolidated net equity and financial position as at December 31, 2019, as well as of its consolidated results for the year then ended, in accordance with the financial reporting framework applicable in Belgium.

### ***Basis for the unqualified opinion***

We conducted our audit in accordance with International Standards on Auditing (ISA's) as applicable in Belgium. Our responsibilities under those standards are further described in the 'Statutory auditor's responsibilities for the audit of the consolidated financial statements' paragraph in this report. We have complied with all the ethical requirements that are relevant to the audit of consolidated financial statements in Belgium, including those concerning independence.

BEDRIJFSREVISOREN

We have obtained from the board of directors and company officials the explanations and information necessary for performing our audit.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Responsibilities of the board of directors for the preparation of the consolidated financial statements***

The board of directors is responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with the financial reporting framework applicable in Belgium, and for such internal control as the board of directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the board of directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the board of directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

## ***Statutory auditor's responsibilities for the audit of the consolidated financial statements***

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a statutory auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

In conducting our audit, we comply with the legal, regulatory and professional standards framework applicable on the audit of financial statements in Belgium. A statutory audit, however, provides no certainty as to the future viability of the Group, nor as to the efficiency or effectiveness with which the board of directors have executed, or will execute, the management of the Group.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control;

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors;
- Conclude on the appropriateness of the board of directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our statutory auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our statutory auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the management, the supervision and the performance of the group audit. We assume full responsibility for the auditor's opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

## **Other legal and regulatory requirements**

### ***Responsibilities of the board of directors***

The board of directors is responsible for the preparation and the content of the management report on the consolidated financial statements.

### ***Responsibilities of the statutory auditor***

In the context of our mandate and in accordance with the Belgian standard (revised version 2020) which is complementary to the International Standards on Auditing (ISA's) as applicable in Belgium, it is our responsibility to verify, in all material respects, the management report on the consolidated financial statements.

### ***Aspects related to management report on the consolidated financial statements***

In our opinion, after having performed specific procedures in relation to the management report on the consolidated financial statements, the management report is consistent with the consolidated financial statements for the same financial year, and it is prepared in accordance with article 3:32 of the Belgian Companies and Associations Code/article 119 of the Belgian Company Code.

In the context of our audit of the consolidated financial statements, we are also responsible for considering, in particular based on the information that we became aware of during the performance of our audit, whether the management report on the consolidated financial statements contains any material misstatement, i.e. any information which is inadequately disclosed or otherwise misleading. Based on the procedures we have performed, there are no material misstatements we have to report to you.

## **Statement related to independence**

- Our audit firm did not provide services which are incompatible with the statutory audit of consolidated financial statements and remained independent of the Group during the term of our mandate.
- The fees related to additional services which are compatible with the statutory audit as referred to in article 134 of the Company Code / article 3:65 of the Belgian Companies and Associations Code were duly itemised and valued in the notes to the consolidated annual accounts.
